

Lab 10: Perform analytics in Power BI

The following note is from the **Fabric Community**:

“The Analytics pane is now merged with the Format pane.

Previously analytics features were on their own pivot in the Visualizations pane. With the removal of the Visualizations pane, we have now added the analytics features to the format pane ...”

<https://community.fabric.microsoft.com/t5/Desktop/Analytics-Pane-is-missing-Build-a-Visual/td-p/3397916>

Here is the saved screen of my lab when adding a forecast on the Format pane.
